

FOR IMMEDIATE RELEASE

Holase’s Ultra Portable Traffic Management System™ –NHHTC 2009 Product of the Year at Manchester-Boston Regional Airport

MANCHESTER, NH – **BUSINESS WIRE** – December 23, 2009 -- **Holase Incorporated** ends a market defining year with the patent pending and award winning Ultra Portable Traffic Management System™ (UPTMS™) being on display at the Manchester-Boston Airport for the 2010 calendar year.

“On November 17, the candidates presented their products in trade show format and on stage. A secret ballot was taken and the audience cast the final vote **selecting Holase, Inc. as the 2009 NHHTC Product of the Year**. They will have their company name engraved on the crystal trophy and their product placed on display at the New Hampshire High Technology **Council’s Hall of Fame** in the Manchester-Boston Regional Airport lobby. The governor (John H. Lynch) recognized the winner and the finalists and presented each of them with a Gubernatorial Citation. The crowd was ecstatic cheering on all finalists and the winning company.” -- New Hampshire High Technology Council’s website.

“Holase’s mission is to develop revolutionary products that save lives and keep nations safe.”

“It was an honor for the UPTMS™ to have been selected as a finalist in the 2009 product of the year competition by a distinguished panel of expert judges. Moreover, to have been voted as the NHHTC 2009 Product of the Year by the audience was a testament that Holase’s UPTMS™ is an innovative product that resonated with attending guests and judges.” said Evan J. Bontemps, Holase’s founder and CEO. “I feel privileged that my company’s first product will be seen by travelers and visitors that go through lobby of the Manchester-Boston Airport. I would like to congratulate the other finalist companies from this year’s competition.”

“Holase’s mission is to develop revolutionary products that save lives and keep nations safe.” Mr. Bontemps continued.
